

OUR PHILOSOPHY

We follow these three principles in rendering the right education for the present and future generations.

Dharma - 'the right way of dutiful living'

Nishta - 'be loyal to oneself and others'

Satya - 'being truthful'

OUR VISION

To be recognized as a school that sets the benchmark in education for its student-centric, individualized and holistic education.

OUR MISSION

Our mission is to prepare and motivate our students for a rapidly changing world by instilling in them 21st Century skills, a global perspective, and inculcate core values such as empathy, kindness and integrity. We strive to prepare our children as life long learners ready to meet the challenges of the future.

THE BHARATH
ACADEMY

THE PROGRESSIVE SCHOOL IMPARTING 21ST CENTURY SKILLS

The Bharath Academy (TBA) is a beautiful campus at Blue Berry hills , Mangalore catering to International standard of education with holistic development for K-12 students.

TBA follows The Cambridge International curriculum. This curriculum is flexible , expansive and more practical based , therefore allowing curious young minds to explore new horizons and discover their true potential. A well-formed mind with leadership skills would be able to create a world where the future dwells.

HIGHLIGHTS OF OUR LEARNING EXPERIENCE AT TBA

STREAM Program (Science ,Technology, Reading, Engineering, Art and Math) - This aims at developing global competences based on the 6C formula - critical thinking, collaboration, communication, character, creativity and citizenship. It is globally acknowledged that STEAM programs are critical in producing well -rounded and well -grounded global citizens for this century by providing motivating and engaging real -world contexts in which students can acquire and apply knowledge and other skills while becoming true agents of their own learning. We at TBA, have incorporated Reading and Research into STEAM to nurture lifelong learning attitude in our students.

TBA life skills - Social and emotional learning (SEL) is an important part of our curriculum. We encourage values like empathy, integrity and most importantly respect for all living beings that forms the foundation for all the stake holders at TBA. TBA's education focuses on cultivating individual life skills such as self-reflection, critical thinking, Problem solving, interpersonal and leadership skills .

Sports - This forms an integral part of development of every child's life at TBA. Having sports integrated into the TBA's curriculum facilitates children to learn variety of sports with our experienced teachers.

Classroom Strength- Our classrooms are close to nature and focuses on collaborative learning. We have a student teacher ratio of 20:1 that helps a teacher to pay individual attention to every student and give inputs that are essential for the growth of the child. These students are further divided into multiple groups to catalyze effective working and learning. This allows a curious child to question and think freely without any inhibition.

Assessments at TBA- We do not have formal examinations. However, we do assess them with a continuous and comprehensive evaluation on the criteria of learning outcomes and give a detailed descriptive report about the child's performance in every aspect of the school curriculum which allows a child to be an explorer without any fear or stress. Examinations will be introduced from Grade 6 to Grade 12 that prepares them for the Progressive Cambridge check point years ahead.

Mrs. Anjana Kamath
Principal -TBA Elements Pre School

The Pre school programme offers a spectrum of fundamental learning of children between 8 months to 6 years.

Toddlers – 8 months to 2 years 10 months

Year 1 – 2 years 10 months and above

Year 2 – 3 years 10 months and above

Year 3 – 4 years 10 months and above

Elements of TBA follows a blend of Montessori and Waldorf approaches to nurture the foundation years of a child with skills that become their everyday learning. The learning imbibed at this stage helps children to progress ahead to the primary and higher stages of school.

Our caring code - to be kind and gentle, listen and use your words well, leads to all the positive qualities of life such as compassion, respect for others, patience, and a love of looking outward into the world.

CAMBRIDGE PRIMARY & SECONDARY PROGRAMME

This is a broad and balanced foundation for fostering young minds to become confident, responsible, reflective, innovative and engaged learners. These attributes kindles the curious minds to think creatively and critically, work in collaboration and expand their cognitive abilities to prepare them for the future.

Cambridge Pathway
